FROM: Lynn Kunzler, Senior Reclamation Specialist 

RE: Site Inspection, Phyllis Bown, Mayfield Quarry, S/039/011, Sanpete County, Utah

Date of Inspection: May 23, 2001
Time of Inspection: 10:30 a.m.
Conditions: Clear, warm
Participants: Danny Bown, Mayfield Quarry, and Lynn Kunzler, DOGM

Purpose of Inspection: Document site conditions.

Upon arrival at the site, it was noted that the markers between this site and the Cream Time Quarry (s/039/009) had not been installed as agreed to during the April 25, 2001 inspection. The reason given for not installing the markers was 'I thought the State was going to come down and determine the exact location of the lease boundary.'

Mr. Bown was instructed that as per the agreement on the boundary location reached during the April 25 inspection, that that would be considered the boundary between the two operations as far as the State was concerned. The markers were to be installed to protect each of the operations from encroachment by the other, as well as identifying the area of disturbance each operator was responsible for. Mr. Bown indicated that the posts would be installed by the end of the week.
